

At Lowcountry Eye Care we pride ourselves on providing our patients with the best possible standard of care. Because of this, we now perform the **optomap** Retinal Exam with all of our patients. This non-invasive procedure allows your doctor to see a much broader and more detailed view of the retina than is possible with conventional methods. When reviewed, the scan becomes a permanent part of your medical file, enabling your doctor to make important comparisons should potential vision threatening conditions show themselves at a future examination. **Your Doctor strongly believes that the optomap Retinal Exam is an essential part of your comprehensive eye exam and prescribes it for all patients once per year.** As part of your pre-test work up, we will capture **optomap** images for review with your Doctor during your examination today.

The \$35 co-pay for this procedure is a non-covered service unless being used to actively follow disease.

_____ I DO want the procedure performed.

_____ I DO NOT want the procedure performed.
