

## Lowcountry Eye Care

Based upon CDC, American Optometric Association, and South Carolina Board of Optometry recommendations, we are immediately implementing the below changes:

- **Eye Care Needs:** We are open and ready to see all patients in a SAFE and CLEAN environment. We are sanitizing all rooms and everything you may touch, including frames.
- **Pick Up Glasses and Contacts:** Please call or text when you arrive and we will meet you at your car to deliver your contacts and glasses. If we do not pick up please do not leave a message (we only check them 4 times a day). You can text the phone number of the location of pick up.
- **Appointments:** All appointments are welcome at all of our locations. We are excited to see everyone!

We are excited to resume normal business and excited to catch up with our patients. Lowcountry Eye Care will be here to help you “see better to experience life better”.
